

KwaZulu-Natal Branch Event

9 May 2012

The event was held at the Blue Marlin in Richards Bay and attended by twenty delegates.

There were two presentations:

- The first was a presentation on 'Eskom's five year strategy' presented by Roy Naidoo, the Lead Customer Executive of the Eskom Group Customer Service Eastern Region. The Co-presenter was Mrs Dhenay Pillay.
- The second presentation was delivered by Mr Kevin Peacocke, the owner and founder of Gravity Concentrators Africa, Peacocke Simpson and Associates, and Appropriate Process Technologies, who presented on 'Enhanced gravity separators and modular plants'.

Both presentations were presented in a very professional manner, with many questions afterwards.

LUDOWICI
MESHCAPE
DRIVEN BY INNOVATION

Ludowici Meshcape is an internationally recognised supplier of high quality equipment and products for mining and industrial applications.

HIGH ALUMINA CERAMICS

A range of high alumina ceramic products are available with the following unique combination of advantages:

- Extremely high abrasion and corrosion resistance
- High strength over a wide range of temperatures
- Extremely hard and durable
