
LETTERS TO THE EDITOR

Dear Prof Gräbe

21 July 2010

As you know I have authored a series of four publications on metabolic diseases of bone in your journal over the past two years. I wish to make use of this opportunity to thank you for the efficient way in which you manage the journal. I frequently publish in other international journals and would rate the *South African Orthopaedic Journal* as the most efficient in my fields of research. Your referees are knowledgeable and their reply times are within acceptable norms, contributing to the rapid turnaround times of submitted manuscripts.

Thank you for editing a publication of which we can be proud.

Erich Raubenheimer
Professor
Metabolic Bone Unit
University of Limpopo
