HOW TO CITE:

Corrigendum: Oster S, Reynard JP, Cawthra HC, Esteban I, Pargeter J, Fisher EC. Late Pleistocene and Holocene fauna from Waterfall Bluff Rock Shelter, Mpondoland, South Africa [S Afr J Sci. 2024;120(11/12), Art. #17449]. S Afr J Sci. 2026;122(9/10), Art. #17449C. https://doi.org/10.17159/sajs.2026/17449C

The authors of the Research Letter 'Late Pleistocene and Holocene fauna from Waterfall Bluff Rock Shelter, Mpondoland, South Africa' make the following correction to the identification of specimen CN47208 (Lot 303) in their article.

The specimen was originally reported as a leopard seal (*Hydrurga leptonyx*) tooth of a possibly older individual, and therefore likely worn. This identification has subsequently been found to be incorrect. The specimen should no longer be attributed to a leopard seal and likely belongs to a c.f. suid. Consequently, the potential palaeoenvironmental inferences made under 'Late Pleistocene Environment' on the basis of this specific identification should be discarded, as should any other mention of this seal specimen throughout the article. All other palaeoenvironmental inferences remain unchanged. Stable isotope analyses of the specimen are underway to more accurately characterise the remains.

The authors regret any inconvenience this misidentification may have caused and thank the researcher who brought it to their attention.
