Retraction

Following publication of the article 'Trends in hypertension prevalence among adults aged ≥40 years in Agincourt, South Africa (2014 - 2022)'[1] in the November 2025 issue, the *SAMJ* was notified that the authors identified a methodological error in the hypertension case definition that materially affects the reported prevalence trend and its interpretation. The article is therefore retracted, and a corrected version is published in this issue as *S Afr Med J* 2026;116(8):e5660 (https://doi.org/10.7196/SAMJ.2026.v116i8.5660).
